## TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, GitHub, PSQL, SQL, Express.js, Bcrypt,  
Node, React, jQuery, Bootstrap, Bulma, Jest, Multer, MongoDB, Mongoose, Webpack

## PROJECTS

### TextFlex ▪ [github.com/harrismhurley/TextFlex](https://github.com/harrismhurley/TextFlex)

- Engineered a Progressive Web App (PWA) using JavaScript and modern web technologies, implementing offline capabilities, optimizing performance, and deploying with Webpack for seamless user experience and accessibility.
- Role: Sole author
- Tools: WebPack, WorkBox, Express.js

### Social Media Clone ▪ <https://github.com/raulds-fmtx/Project-2-Group-2>

- Full-featured social media platform for creating personalized profiles, sharing updates, and engaging with a vibrant community. Features include posting updates with images, liking and commenting on posts, and dynamic chat rooms.
- Role: UI/UX Designer & System Architect
- Tools: JavaScript, Node.js, Express.js, Handlebars, Sequelize, PostgreSQL, Bulma, jQuery

### ThoughtWave ▪ [github.com/harrismhurley/ThoughtWave](https://github.com/harrismhurley/ThoughtWave)

- Leveraging a full-stack development approach, ThoughtWave integrates Express.js for robust server-side logic and MongoDB with Mongoose for efficient data management. The platform prioritizes secure and efficient data handling, ensuring a reliable user experience.
- Role: Sole author
- Tools: MongoDB, Mongoose, Express.js

## EDUCATION

### Certificate, Full Stack Web Development – Southern Methodist University

Dallas, TX, Jan 2024 - Present

## EXPERIENCE

### Jackson Armory

Dallas, TX

Online Merchandise Specialist

Feb 2024 - May 2024

- Employed keen attention to detail to ensure accurate product descriptions, high-quality images, and competitive pricing, resulting in a significant boost in online traffic and customer engagement.
- Implemented effective search engine optimization (SEO) strategies to optimize product visibility and improve search rankings, driving organic traffic and maximizing online exposure.
- Maintained up-to-date knowledge of industry regulations and best practices, ensuring compliance with legal requirements and ethical standards in all online transactions.

### Bistro 31

Dallas, TX

Server

Jul 2023 - Jan 2024

- Utilized software tools to track inventory levels in real-time, ensuring accurate stock management and timely reordering to meet customer demand.
- Provided technical support and training to team members on the use of restaurant management software, improving overall team proficiency and efficiency.
- Implemented efficient customer service protocols to enhance user satisfaction, ensuring a seamless dining experience by managing customer interactions and addressing concerns promptly.

### Cafe Pacific

Dallas, TX

Server/Bartender

Jun 2021 - May 2023

- Engaged with patrons in a professional and personable manner, building rapport and ensuring a memorable visit, developing strong oral communication and leadership roles.
- Diagnosed and resolved technical issues related to POS systems and other restaurant technology, minimizing downtime and ensuring continuous operation.
